NEXT NEWSLETTER:

3rd steering committee meeting of the ISEKI_Food projects, Warsaw, Poland

The Warsaw University of Life Sciences in Poland hosted the third and final steering committee meeting of the ISEKI_Food projects from the 9th to 10th May. A total of 38 partners attended, representing 14 ISEKI_Food 3 and 7 ISEKI_Mundus 2 countries.

The meeting was opened by Professor Dorota Witrowa-Rajchert, Dean of the Faculty of Food Sciences, who gave an overview of teaching and research activities. The faculty is composed of four departments and offers full- and part-time two-stage degrees with specialisation in Biotechnology, Microbiology and Food Evaluation; Food Engineering and Process Management; and Food Technology. A tour of the facilities on the second day of the meeting demonstrated the equipment and research being conducted in these disciplines.

The meeting activities focussed on the finalisation of project activities, evaluation and reporting, as well as progress with the organisation of the ISEKI_Food 2011 conference. Abstracts have been pouring in for the various sessions and during the meeting we reached a total of over 200 received! Thanks to all the partners currently reviewing these abstracts and we look forward to a successful conference in Milan.

Many thanks to our meeting host Andrzej Lenart and his colleagues for a very enjoyable two day meeting. We were as always very well taken care of! For many of us, it was our first trip to Warsaw and I would personally recommend visiting (especially when the weather is as pleasant as we experienced!). All that remains to be said is, see you in Milan for our final meeting in August!

2nd ISEKI_Food Conference (Milan, 31st August - 2nd September): UPDATES

Scientific programme

The Executive and Scientific Committees have recently finalised the scientific programme of the 2nd ISEKI_Food conference that, at this stage, includes the keynote and invited lectures that will be given by eminent scientists and experts from Universities, non-profit organisations and multinational companies representatives (*please see the programme in the box below*) from all over the world. Few space is still available for oral presentations that will be selected from the submitted abstracts.

At the moment more than 230 abstracts have been submitted from scientists from more than 25 countries, throughout the world, fitting the topics of the three main sessions. The ISEKI_Food 2011 conference expects to attract about 300 to 400 participants.

Opening Workshops

Two workshops running in parallel on the 31st August are included in the conference programme. One workshop will be focused on the "Food Professional Regulation in EU" and the second one on "Quality Standards in Food Studies". The programmes of both workshops are available at the website of the conference. (http://www.isekiconferences.com/milan2011/).

Attendance and participation

Deadline for early bird registration fees (for the non ISEKI_Food partners representatives) is next (15th June) and we invite

WEDNESDAY, 31 AUGUST 2011

14:00 **Pre-conference Workshops**

Food Professional Regulation in EU
Quality Standards for Food Studies

9:00 - 10:00 *Registration*
13:30 - 14:00

Opening & Welcome

17:30 local authorities, UNIMI Rector and ISEKI_Food representatives
18:30 **Daniele Rossi -** *Italian Food Industry Federation, Italy*
"Bridging research and Food & Drink Industry needs and future skills"
19:30 *Welcome Cocktail*

THURSDAY, 1 SEPTEMBER 2011

SESSION 1: *New Skills for New Jobs*

8:30 **John Dalli** - *European Commission*
9:00 **Marc Dreyer** - *Nestlé*
"Selecting and Developing talents for R&D"
9:40 **Elisabeth Dumoulin** - *AgroParisTech, France*
"Changes and perspectives in Food Studies"
10:20 **Katherine Flynn -** *Track Fast Steering Committee*
"Assessment of Job Market Needs - Track Fast _WP1"
10:50 *Coffee Break & Poster Session*
11:50 Selected oral presentations
12:30 **Purnendu C. Vasavada** - *University of Wisconsin, United States*

SESSION 2: *New Tools for Research and Food Process Innovation*

14:30 **Sam Saguy -** *Hebrew University of Jerusalem, Israel*
"Academia role in driving innovation and social responsibility"

15:10 **Jan Maat** - *Top Institute Food and Nutrition, The Netherlands*
"The Top Institute Food and Nutrition; combining industrial and scientific excellence in a successful public-private partnership"

15:50 **Rickey Yada -** *Guelph University and AFMNet, Canada*
"An overview of the science and technology in food and food products at the nanoscale level"

16:30 *Coffee Break & Poster Session*

17:30 **Paul Singh** - *University of California, USA*
"Computational Modelling as a Tool to Study Food Digestion"

18:00 **Oliver Schluter** - *Leibniz Institute for Agricultural Engineering, Germany*
"Plasma treatment of foods: potential and evaluation "

20:00 *Conference Dinner*

FRIDAY, 2 SEPTEMBER 2011

SESSION 3: *Food for Wellbeing: International Perspectives and Challenges*

9:00 **Karl Schebesta** - *UNIDO*

9:30 **Kees de Gooijer** - *Food & Nutrition Delta – Wageningen, The Netherlands*
"Food, Health, Sustainability: challenges for Innovation."

10:00 **Didier Bonnet -** *Global Food Research - Cargill, Belgium*
"Truvia ™ : a recent example of food ingredient innovation."

10:30 **Andrea Segrè** - *University of Bologna, Italy*
"Transforming food waste into resource with Last Minute Market: an European perspective"

11:00 *Coffee Break & Poster Session*

11:40 Round Table: MODERATOR: **Paulo Sobral** - *University of São Paulo, Brazil*
Anna McElhatton - *University of Malta:* Malta point of view.
Paul Singh - *University of California, USA*: USA point of view.
Gustavo Gutiérrez - *National Polytechnic Institute, México*: México point of view.
Monang Manullang - *Institut Pertanian Bogor, Indonesia*: Indonesia, Thailand and China point of view.
Afam Israel Jideani - *University of Venda, South Africa*: Africa point of view.
Carlos de Oliveira - *University of São Paulo, Brazil*: Brazil point of view.

13:00 *Conclusions & End of the Conference*

Invitation for sponsorship

We are very proud to acknowledge the contribution of some food companies, including Puratos, GNT, De Cecco, DSM and Cargill, that will financially support our event as well as awards for students and PhD. If any of you has contacts with companies interested in supporting the conference, please contact the conference secretariat (conference@iseki-food.net) or the coordinator of the National Organising committee, prof. Saverio Mannino (saverio.mannino@unimi.it).

The main areas of support are:

- Presenting your company to an international audience by taking an exhibition booth during the event *(ample space will be reserved for exhibition - contact with the audience is guaranteed by the integration of coffee breaks and poster sessions into the exhibition)*
- providing a company award, or other awards, for the foreseen poster competition
- sponsoring this important event financially, with your logo on main documents *(please see form below* - other possibilities of support or sponsorship *(please find form or at the conference website)*

SPONSORSHIP CATEGORIES

PLATINIUM • Logo plus link to a company site on the Conference Homepage (www.isekiconferences.com/milan2011/) • Logo on the 2nd conference announcement • One page advertising space included in the Conference proceedings book • One conference ticket (fee)	5,000 €
GOLD • Logo plus link to a company site on the Conference Homepage (www.isekiconferences.com/milan2011/) • Logo on the 2nd conference announcement • 1/2 page advertising space included in the Conference proceedings book • One conference ticket (fee)	3,000 €
SILVER • Logo on the Conference Homepage (www.isekiconferences.com/milan2011/) • Logo on the 2nd conference announcement • Logo and company details included in the Conference proceedings book	1,500 €
Bag Sponsoring • Title and logo of the company on the Conference bags	1,500 €
Inside Bag Sponsoring • Brochures of the company in the Conference bags	500 €
Exhibition booth • Area of 3x2 m, with ample space guaranteed	2,000 €
Sponsoring by products • Supporting coffee breaks or lunches • Supporting the Welcome Reception and/or Conference Dinner	*
Poster Award	*

**Please specify the amount*

We look forward to welcoming you in Milan!

Sponsored by:

E-Journal

The International Journal of Food Studies (IJFS) is already accepting submissions.

Authors need to **register** with the journal prior to submitting, or if already registered can simply **log in** and begin the 5 step process. Please see the **Submission Circuit** for more details.

We recommend that you review the **About the Journal** page for the journal's section policies, as well as the **Author Guidelines** .

You can download the template for your article at **Manuscript template**.

AIMS AND SCOPE

The *International Journal of Food Studies* (IJFS), a journal of the ISEKI_Food Association, is an international peer-reviewed open-access journal featuring scientific articles on the world of Food in Education, Research and Industry. This journal is a forum created specifically to **improve the dissemination of Food Science and Technology knowledge between Education, Research and Industry** stakeholders. Core topics range from raw materials, through food processing, including its effect on the environment, to food safety, nutrition and consumer acceptance. To enrich this forum the journal is also open to other food-related topics such as food policy and food anthropology.

Original contributions relevant to the following topics will be considered for publication:

- **Education** methods, including Life Long Learning and e-learning;
- **Research and application** in academia, research, industry;
- **Critical reviews of scientific literature** by researchers, students, invited authors;
- **Exchange of views and opinions of a scientific nature** including testimonies on career experiences in Food Industry/Research/Education (required skills, challenges and successes).

TYPES OF PAPERS

Original research, reviews, opinions, testimonies and best practices coming from professionals either from the sectors of Education, Research or Industry are welcome to be published in this journal.

Authors must ensure that the submission has not been previously published, nor is it before another journal for consideration.

Papers accepted for publication become the copyright of the Journal.

AUDIENCE

The *International Journal of Food Studies* is mainly directed to scientists, technologists, researchers, teachers and students working in the food sector.

PERIODICITY

The *International Journal of Food Studies* will be published twice per year, with the first issue scheduled for the last trimester of 2011. All articles will be assigned a doi number (Digital Object Identifier) whereby they become searchable and citeable.

ISEKI_FOOD WORKSHOP ON FOOD PROFESSIONAL ETHICS AT THE UNIVERSITY OF TERAMO

An ISEKI_Food Workshop on "Professional ethics of Food Technologists" was held at the Faculty of Agriculture of the University of Teramo on 20th May.

This event was organized as part of the ISEKI_Food 3 project activities (www.iseki-food.eu) with the collaboration of the Order of Food Technologists, Regione Abruzzo (www.otaabruzzo.it) and the Association ISEKI_Food ASSOCIATION (www.Iseki-food.net).

This workshop was aimed to encourage a wide debate among food technologists, industry, students of degree courses in food science and technology, on teaching and research ethics aspects, today more and more important, in the profession and in food production.

After the presentation of the ISEKI_Food projects given by Paola Pittia, the topic of the workshop was presented and discussed with the contributions of experts and professionals from university, professional bodies and industry, including professor Antonello Paparella, from the University of Teramo who gave an overview on food safety and ethics; dr Giancarlo Criscuoli , President of the National Board of Food technologist professionals who gave a talk titled "Professional ethics of Food technologists, from the past to the future" and dr Emiliano Di Lullo, Gruppo Amadori Industries, whom oral presentation was titled "Ethics and sustainability in the food industry".

At the event attended more than 60 participants, including professionals, representatives of food

11th INTERNATIONAL CONGRESS ON ENGINEERING AND FOOD - Food Process Engineering in a Changing World, May 22-26, 2011, ATHENS - GREECE

The ISEKI_Food Network related activities, the FP7 project TRACK_FAST and the ISEKI_Food Association were major participants in the Food Education round table at the 11th INTERNATIONAL CONGRESS ON ENGINEERING AND FOOD, held in Athens, being responsible for half of the presentations.

From TRACK_FAST, Rui Costa presented a paper "Should Academia support the regulation of professions related to food science and technology?", giving an overview of the regulated Food Science and Technology professions in Europe and asking the audience for their contribution to the discussion about common regulation of these professions in Europe.

Marco Dalla Rosa presented "Recognition of Prior Learning - a research under ISEKI_Food 3 project", introducing the concept of recognition of prior learning and summarizing the main results of the survey done within ISEKI_Food 3 and ISEKI_Mundus 2 partners institutions. The results presented showed extreme variation, from the total lack of knowledge of this kind of procedure to the recognition of complete programmes based on experiential learning of the applicant, resulting in the award of a diploma.

Finally, Iring Wasser from the Quality Assurance agency ASIIN, representing its partnership with the ISEKI_Food Association, announced to the international community the launch of the EQAS-Food Award, the accreditation scheme of Bachelor's and Master's programmes in Food Science and Technology. The ISEKI_Food projects have been working on this programme in education quality since their beginning and this Award is the culmination of many years of work and collaboration between numerous higher education institutions and industry.

SimpBTH 2011

4th International Symposium of Biotechnology

10 – 11th November 2011, Bucharest, Romania

The Faculty of Biotechnology from USAMV Bucharest and the Centre of Microbial Biotechnology BIOTEHGEN are organizing now the 4th *International Symposium of Biotechnology SimpBTH 2011* during **10 – 11th of November 2011** in Bucharest, capital of Romania.

This is an annually successful event and its mission is to bring together Education, Research, NGO's and Industry from the generous field of biotechnology.

The main topics are: Agricultural Biotechnology, Biotechnology in Veterinary Medicine, Food Biotechnology, Industrial and Environmental Biotechnology, Food Safety and Miscellaneous.

The articles' reviewing process will be provided by a valuable international Scientific Committee.

For any further information you may check regularly the symposium website: http://simpbth.usamv.ro.

Second International Conference on Food-Omics

The 2nd International Conference on Food-Omics, organised by the Food Sciences Campus of University of Bologna, in collaboration with Ser.In.ar Forlì-Cesena, will take place in Cesena on June 22-24, 2011.

Food-Omics 2011 will deal with the most recent advances in the area of food and human nutrition with a multidisciplinary and comprehensive ("omic") approach. During the three Conference days, many internationally renowned speakers will disseminate the latest scientific discoveries related to food and nutrition sciences.

The different thematic sections will touch different topics: food quality and biodiversity, optimal nutrition (nutrigenetics and nutrigenomics), ageing and disease prevention, industrial processing and biotechnology.

Cesena is a city located in the Italian territory marked by a strong eno-gastronomic tradition, location of the Food Sciences' Campus of University of Bologna.

Location: Aula Magna della Facoltà di Psicologia, Cesena

Date: June 22-24, 2011

Integrating research in particle and powder technology to deliver efficient products

Objectives of PowTech Initial Training Network **ITN**

The objective of this network is to integrate inter-sectoral and multidisciplinary research in particle and powder technology into the training of 15 highly skilled young researchers, to strengthen the competitiveness of food and pharmaceutical industry and to strengthen the European Research Area.

The highly skilled human resources and the knowledge in powder technology to be developed in the PowTech network will contribute to the development of innovative products and effective powder processing in Europe by solving industrial problems and reducing knowledge barriers.

For more information about each project please visit http://www.sik.se/powtech or contact the project coordinator: lilia.ahrne@sik.se
